iWALK

This award-winning new crutch design makes for a great alternative to traditional crutches and knee scooters for all below-the-knee injuries. The iWALK2.0 gives you hands-free/pain-free mobility and gives you back the ability to live a functional, independent lifestyle. So now pushing a shopping cart, taking the stairs, walking the dog, going to work are all possible again with the best hands-free crutch solution, iWALK2.0.

PRICE: \$149.00

KNEE ROVER

Ideal for individuals recovering from injury or surgery to the foot, ankle or lower leg as well as below the knee amputees. The KneeRover Deluxe KneeCycle is one of the most advanced knee walkers in the industry and an excellent alternative to crutches.

Maximum stability and control when maneuvering - these steerable knee scooters offer an advanced automotive style tie-rod steering mechanism (not available on most knee walkers) and an adjustable locking handbrake.

PRICE: \$149.00

ROLLATOR

If you're seeking a safe, convenient aid to improving your daily mobility, a Rollator can be the ideal solution. Wheels make a Rollator a superior option over a standard walker, eliminating the need to lift the device and allowing you to walk with an easy, smooth gait. Plus, Rollators are better for travelling over uneven, outdoor terrain, making them great for your active, busy lifestyle. And with the built-in seat found on a Rollator, you'll always have a convenient place to rest.
